

ΕΞΟΠΛΙΣΜΟΣ

(Οι όροι στα αγγλικά γιατί έτσι τακτοποιείται ευκολότερα όπως παρουσιάζεται στο εμπόριο διεθνώς)

EQUIPMENT PER TRAUMA RESUSCITATION BAY

(Area to treat 1 patient):

1. 1 Resuscitation Trolleyed Bed
 - a. Adjustments with Hydraulic Pedals
 - i. Height
 - ii. Back Rest
 - iii. Tredelenburg
 - iv. Reverse Tredelenburg
 - b. Translucent with Sliding X-ray Cassette Tray
 - c. Adjustable Railing (Side Bars)
 - d. Radiolucent Mattress
 - e. IV Fluids Stand
 - f. Steering Handles
 - g. Housing for Oxygen Cylinder
2. 1 Monitor (with Transport Module)
 - a. ECG Leads
 - b. Temperature Probe
 - c. CVP/Arterial Pressure Measuring
 - d. Respiration Parameters Monitoring
(Minimum: SaO₂, Respiratory Rate)
3. 1 Ventilator
4. 1 Pedestal (Attached to Floor or Ceiling)
5. 1 Ambu-Bag
6. 6 Ambu Silicone Masks with Sizes # 6,5,4,2,1 &
1 with Boring (Extra Seal for Child Face)
7. 1 Forced Air Warming Patient System
8. 2 IV Fluid/Blood Infusion Pump
9. 1 Spot-Light (Preferably from Ceiling)
10. 2 Stainless Steel Equipment Tables
11. 2 Stainless Steel Drip Stands on Wheels
12. 1 Stainless Steel Height Adjustable Stool
13. 1 Stainless Steel Bucket on Wheel (Kick-About)
14. 1 Stainless Steel Waste-Bin (Pedal)
15. Two Lead Aprons
16. Lead Apron Hangers
17. Laryngoscope Blades
 - a. Miller (Straight—Pediatric) Sizes #0-3
 - b. Macintosh (Curved—Adult) Sizes #1-4
18. 2 Laryngoscope Handles (Adult)
19. 1 Laryngoscope Handle (Pediatric)
20. 1 CO₂ Detector (Adult)
21. 1 CO₂ Detector (Pediatric)
22. 1 Tracheal Gum Elastic Bougie

IN EVERY RESUSCITATION AREA IRRESPECTIVE OF NUMBER OF RESUSCITATION BAYS

1. 2 Portable Suction Machines
2. 4 Large Clinical Waste Pedal Bins (Stainless Steel, Silent)
3. Step—on Plastic Waste Receptables (Containers)
4. 3 Femoral Fracture Traction Splints
5. 4 Pulley Systems (Skeletal Traction) Attachable to Resuscitation Beds
6. 2 Plastic Scoops
7. 1 Body Roller
8. 1 Hard Board (Body Length)
9. 1 Hard Board for CPR (Chest Length)
10. Fridge for Medications
11. IV Fluids Warmer Cabinet
12. Fridge for Blood
13. U/S Machine
14. 12 Lead ECG Machine
15. Defibrillator
16. 2 Fast Flow Fluid Transfuser/Warmer (e.g. Lever I, Viking etc)
17. 1 Portable X—ray Machine
18. 1 Glidescope
19. 1 Two Steps Ladder for CPR
20. 2 Portable Ventilators (with VCV, PEEP, PCV+PS)
21. 2 Emergency Department Thoracotomy Trays, each containing:
 - a. Instrument Stainless Steel Sterilization Tray
 - b. Finochietto Retractor
 - c. 2 Curved Mayo Scissors (Short 17cm & Long 27cm)
 - d. 2 Mosquito Clamps
 - e. 2 Kelly Clamps
 - f. 2 Needle Holder (Short 17cm & Long 27cm)
 - g. 2 Satinsky Clamps Straight (Short 17cm & Long 27cm) for Aorta
 - h. 1 Satinsky Curved (27cm) for Lung
 - i. Duval Lung Clamp
 - j. Sternotomy Instruments
 - i. Lebsche Knife
 - ii. Hammer
 - iii. Heavy Shears
 - iv. Gigli Saw
 - v. Scalpel Handles (Short & Long)
 - vi. Scalpel Blades #10 and 11
22. 3 Thoracostomy Trays, each containing:
 - a. Instrument Stainless Steel Sterilization Tray
 - b. 2 Kelly Clamps
 - c. 2 Mosquito Clamps
 - d. Needle Holder
 - e. Scalpel Handle
 - f. Scalpel Blades #10 and 11
23. 2 Trauma Tourniquets
24. 1 Blood gas Machine
25. 1 Plasma Thawer for 4 Units
26. Fiber Optic Bronchoscope (Adult)
